Annual Report – 2022-23

In the backdrop of the past few years of pandemic I remember the story of a bird Phoenix, from the Greek mythology, which is believed to have risen from ashes and has been reborn after the death.

The last few years have been distressful and struggleful for the whole world due to deadly outbreak and like every other organization and institute we had a challenge of reviving the school life, bringing the school routines and schedules back on the track.

I am proud to share with you that with the guidance of our management, efforts by teachers and constant support from the parents of the students we have succeeded in streamlining and organizing the activities in the school.

Theme of the year:

A will power to do something , a tenacity to achieve something and a motivation to move forward is what the life is all about. To inculcate this value in students the school has chosen the theme 'Vincent' for the year 22-23. The aim is to make students see dreams and strive for their goals.
